# FEATURED AUTHORS

**Alain M. Bergeron**  
AUTHOR

A prolific author, Alain has over 200 children's books to his name. In 1996, he partnered with Sampar, the start of a life-long friendship and an invaluable collaboration that produced over a hundred works. *Savais-tu?* (*Do you know?*) and *Billy Stuart* are just two of the many popular series they've created together.

Alain devotes himself exclusively to writing and to leading school workshops. His vivid writing and inexhaustible imagination have made him a fixture in children literature.

In 1990, he won his first literary award, quickly followed by numerous other nominations and prizes. His books have been translated around the world and are a monstrous success! The *Savais-tu?* series in particular has sold over 600,000 copies in Quebec alone.

**Billy Stuart**

**Sampar**  
AUTHOR, ILLUSTRATOR

Illustrator, cartoonist, and author, Samuel Parent, better known by the pen name Sampar, has been a standout in the publishing world for several years now. A self-taught, multi-talented illustrator, he possesses a lively imagination that draws us into worlds that are by turns moving, wacky, and sometimes even mythical.

His career as an illustrator hit its stride at the humour magazine *Safari*, earning him widespread acclaim in Quebec, the United States and Australia. For the past few years, he's illustrated the *Savais-tu?* (*Do you know?*), *Billy Stuart*, and *Les Zintrépides* series, which are hugely popular in Quebec and have been translated into several languages.

In 2013, Sampar published his first solo comic book, *Guiby*. The adventures of this super-baby character made him a finalist for the 2014 Bédély's Young Adult and the 2014 Joe Shuster awards.

**Maxim Cyr**  
AUTHOR, ILLUSTRATOR

Montreal-based illustrator Maxim Cyr partners with Karine Gottot on the original series *Les dragouilles*, a comic book guide to major cities around the world. The series has earned the duo several Canadian literary awards, including the Tamarack Express and the Hackmatack awards. It is also one of the great successes of contemporary Quebec young adult literature, with over 200,000 copies sold in Quebec. *Les dragouilles* is also available in francophone Europe, Turkey, China and Mexico and is well on its way to conquering the rest of the world!

In 2012, Maxim won the Hachette Canada comic book contest and in 2015, he released *Victor et Igor*, a new comic book humour series starring two eccentric robots.

Over the years, Maxim has honed a signature style that is at once fresh and contemporary. His clean, rounded lines and careful choice of colours are a hallmark of his work. He devotes a lot of time to creating characters that come vividly and endearingly to life under his pen.

**Karine Gottot**  
AUTHOR

Karine Gottot has a teaching degree in high-school geography and history. Over the past 15 years, she's worked closely with young adults as an activity leader, teacher, and tutor. That experience now serves her well as an author of young adult literature. Since 2010, she has partnered with Maxim Cyr on *Les dragouilles* series, which combines wacky humour with informational portraits of major cities. *Les dragouilles* quickly became a hit with children and earned numerous awards.

In 2014, she teamed up with illustrator Mathieu Lampron to publish the first volume of the docufiction series, *Les Mutamatak*.

**The Dragouilles**

Luna

**Élodie Tirel**  
AUTHOR

Élodie Tirel is a prolific French author, a Tolkien fan, and a YA literature enthusiast. Her first fantasy novel, *Les héritiers du Stiryx* (*The heirs of Stiryx*), won the Merlin award in 2008.

Élodie Tirel has since discovered her passion for writing. Her un-failing imagination teems with fantastic stories and her laptop is always at hand. She's had around thirty works published, including *Luna l'elfe de lune* (*Luna, the Moon Elf*), which was a success in both France and Quebec. It has sold over 200,000 copies and will soon be released as a graphic novel and an audio book.

**Yvan DeMuy**  
AUTHOR

Yvan DeMuy has worked as a special educator of children with learning disabilities for over 20 years.

He began writing in 1997. After completing several young adult novels, Yvan turned his creative talent to television writing as well. He's been a screenwriter for the young adult web series *Juliette en direct* (*Juliet Live*) — a triple-Gemini award winner — as well as for the *Yamaska* and *Dis-mois tout* (*Tell Me Everything*) web capsules.

In 2013, in addition to his screenwriting projects, the author began collaborating with Jean Morin on the illustrated fiction series *Les soucis d'un Sansoucy* (*The Burdens of a Lightheart*). No burdens weigh Yvan down, however, now that success is inevitable: the series is currently available in France and Bulgaria, and will soon be published in Turkey.

**Jean Morin**  
AUTHOR, ILLUSTRATOR

In 1987, Jean Morin was part of the circle of collaborators behind the launch of *Safarir* magazine. He drew illustrations for the magazine for nearly 10 years. He has since worked as an illustrator for educational and young adult publishers as well as for advertising agencies. He loves his work, which allows him to explore different facets of his art, from humour and short story illustrations to advertising-style infographics, in both black-and-white and colour, for comic books and graphic novels. A lifelong creative, Jean is always brimming with ideas for new projects. In 2013, he partnered with Yvan DeMuy to produce the humour series *Les soucis d'un Sansoucy* (*The Burdens of a Lightheart*), which is currently being translated and adapted in three other countries. He is also at work on a new project for a series that is for now TOP SECRET!

### LA TERRE, PLANÈTE ACTIVE

Chaque jour, la télévision et les journaux nous rappellent que la Terre est une planète agitée: tremblements de terre, éruptions volcaniques, glissements de terrain, raz-de-marée... Ces phénomènes ont des effets dévastateurs, mais ils aident les scientifiques à comprendre ce qui se passe à l'intérieur de notre planète.

#### LA TERRE EST UN ŒUF!

L'intérieur de la Terre est fait de trois couches. À la surface, il y a la **croûte terrestre**, c'est-à-dire la partie solide sur laquelle nous marchons. Sous cette croûte, on trouve le **manteau**, constitué de roches en fusion qu'on appelle le magma. Cette matière brillante remonte parfois à la surface sous forme de lave crachée par les volcans. Enfin, le centre de la Terre est occupé par un **noyau** de fer et de nickel. Si la Terre avait la taille d'un œuf, la croûte serait aussi mince que la coquille, le manteau aurait la même épaisseur que le blanc, et le noyau serait gros comme le jaune de l'œuf!

#### TREMBLEMENTS DE TERRE ET VOLCANS

La croûte terrestre est divisée en plusieurs grands morceaux, on les appelle les **plaques tectoniques** et elles flottent littéralement sur le manteau en dérivant les unes par rapport aux autres. Lorsque deux plaques entrent en collision, la croûte se plisse et forme des volcans et de hautes montagnes. Par exemple, l'Inde s'enfonçait présentement dans l'Asie, ce qui soulève les montagnes de l'Himalaya. Lorsqu'au contraire deux plaques s'écartent, le magma contenu dans le manteau remonte à la surface et se solidifie. Ces mouvements incessants de la croûte terrestre provoquent de nombreux tremblements de terre et de violents raz-de-marée.

#### LA DÉRIVE DES CONTINENTS

As-tu remarqué que, de part et d'autre de l'océan Atlantique, les continents pourraient s'imbriquer comme les pièces d'un casse-tête? C'est parce qu'il y a 250 millions d'années, ces continents étaient soudés les uns aux autres et formaient un seul et unique continent géant qu'on appelle aujourd'hui la Pangée.

À cette époque, l'océan Atlantique n'existait pas, et le Pacifique était beaucoup plus vaste qu'aujourd'hui! Depuis, l'Amérique du Nord et l'Europe sont entrainées par la dérive des plaques tectoniques et s'écartent à raison de trois centimètres par année.

Il y a 250 millions d'années      Il y a 125 millions d'années      Aujourd'hui

10,2 km

POINT CHAUD

#### DES « POINTS CHAUDS »

Le manteau terrestre comporte certains «points chauds» où la chaleur s'accumule tellement que la croûte terrestre finit par se presser au beau milieu d'une plaque tectonique. Ce type d'éruption crée des volcans qui ont la forme de boucliers et qui sont parmi les plus gros de notre planète. Par exemple, le volcan Mauna Kea, sur l'île Hawaii, s'élève à 10,2 km d'altitude au-dessus du fond de l'océan Pacifique!

With situations that are at once familiar, charming and comical, many children – and their parents too – will recognize themselves in these heart-warming tales.

When I returned to the bathroom, I explained to Papa Bear that I could not take a bath because the wash towel was too big and worse still, the towel to dry myself off was too small! He pointed out my mistake: it was in fact the other way around. I understood. The small one was for washing and the big one was for drying. He knows a thing or two, my Papa Bear does!

Quelques minutes plus tard, le cri strident de la grosse bête souligne notre atterrissage dans la cour du château. J'aperçois alors d'autres bêtes jaunes qui relâchent elles aussi leurs otages.

Mon sac de briques sur le dos, je rejoins mes compagnons. Trop heureux d'avoir enfin été libérés, nous courons vers l'enclos clôturé qui nous est destiné.

Malheureusement, ce sentiment de liberté est de bien courte durée puisqu'un affreux mutant, l'assistant de la sorcière, nous ordonne bientôt de nous mettre en rangs.

— Il est temps de faire notre première tournée.  
— D'accord, c'est parfait pour moi. Et on va tourner quoi?  
— Nous allons tourner autour des érables.

Gonzague est inquiet. Il se demande si son amie n'a pas trop bu de cette eau sucrée.  
— Ne te fais pas de soucis, Gonzague. Effectuer la tournée, c'est faire le tour parmi les érables pour ramasser l'eau.  
Maintenant que Gonzague est rassuré, il s'empresse d'aider

Babette. Il sait exactement où sont les chaudières pleines puisqu'il a vérifié tous les érables plusieurs fois par jour.

Pourtant, on peut voir qu'on s'en approche grâce à certains signes: la route n'est plus bordée de grands arbres mais d'arbustes rachitiques, les maisons sont si basses que leurs toits touchent le sol, et les pantalons des habitants sont tellement usés aux genoux qu'ils en sont transparents.

Plus on avance et plus les gens ont le dos rond, même lorsqu'ils ne portent rien sur leurs épaules, même lorsqu'ils sont jeunes. Seuls les tout petits enfants se tiennent droit, et encore. Malourène est affligée par le spectacle de ces gens dont l'horizon semble s'arrêter au bout de leurs pieds.
