OK,
I get it!

But
I'll be
back...

Did you know that during the time of dinosaurs human beings did not yet exist? In fact, humans did not appear until 65 million years after the last dinosaur disappeared.

Did you know that the first dinosaurs lived about 250 million years ago?
They reigned over Earth for 160 million years.

Did you know that during the time of dinosaurs there were also gigantic insects? There were 75-centimetre-wide dragonflies and 30-centimetre-long cockroaches—that's longer than a human foot!
