OK,  
I GET IT!

BUT  
I'LL BE  
BACK...

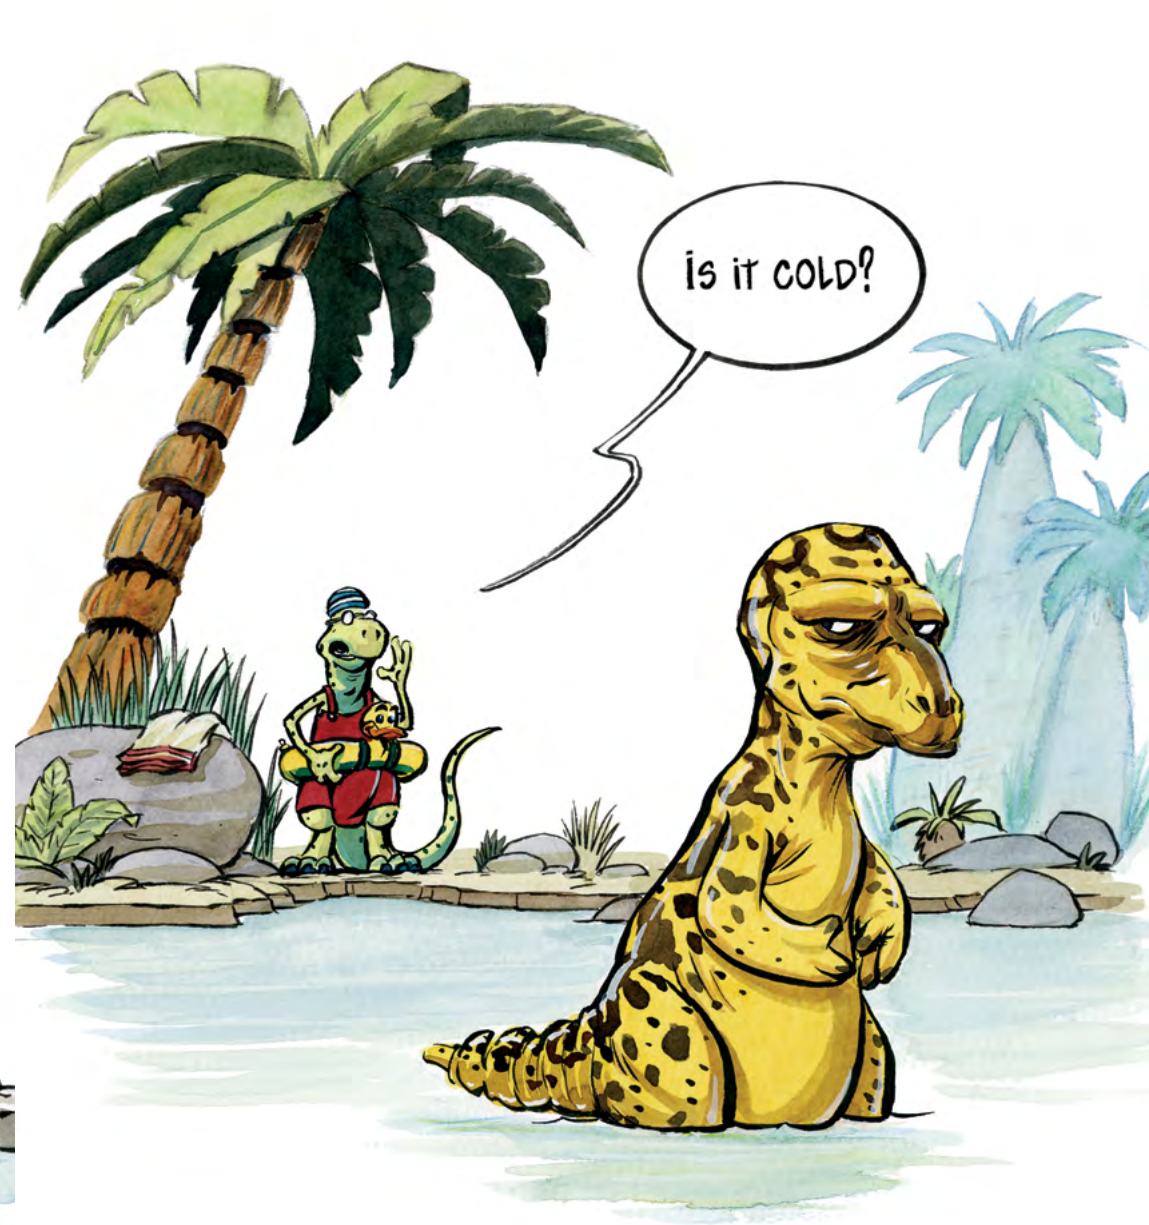

Did you know that during the time of dinosaurs human beings did not yet exist? In fact, humans did not appear until 65 million years after the last dinosaur disappeared.

Did you know that the first dinosaurs lived about 250 million years ago?  
They reigned over Earth for 160 million years.

Did you know that during the time of dinosaurs there were also gigantic insects? There were 75-centimetre-wide dragonflies and 30-centimetre-long cockroaches—that's longer than a human foot!

Did you know that dinosaurs were reptiles? Moreover, the term "dinosaur" means "terrible lizard". All dinosaurs lived on land, even if they did go in the water occasionally.

# DID YOU KNOW

These humorous and intelligent documentaries use a cartoon format to teach about little-known animals and their habits. The combination of comical illustrations and scientific information helps readers easily assimilate new wildlife knowledge.
